RE: PMMS Report - Aging Days

External

Inbox x

A

Ajmal Paravetty

to me, Senthil, Ida

Dear @gowtham

As discussed with Sudarshanam, kindly check the below email and do the needful to update the 'Duration' calculation logic in the 'Task Details Report' for both UAT & Production.

We will wait for your update because we must submit the report into the higher-level management today.

Subject: RE: PMMS Report - Aging Days

Dear Ida,

Noted the below, I will coordinate with BG team and inform them to update the calculation logic for the 'Duration' filed. And if need we can inform them to rename the 'Duration' – 'Aging Days'.

I will let you know once this one is updated.

Subject: PMMS Report - Aging Days

Dear Ajmal,

As discussed,

We need to incorporate the Aging Data into the PMMS Report using the logic applied in MS Project. However, upon review, we noticed that the Duration field is not accurately calculating the aging days.

Logic:
If there is an Actual End Date: Aging Days = Planned Start Date to Actual End Date.
If there is no Actual End Date: Aging Days = Planned Start Date to the report extraction date (today).

Kindly look into this issue and fixed at the earliest and let me know if any clarifications.

S.NO	Planned Start Date	Planned End Date	Actual Start Date	Actual End Date	Aging Days
1	1 st Oct 2024	31 st Oct 2024	10 th Oct 2024	2 nd Nov 2024	32
2	1 st Oct 2024	31 st Oct 2024	5 th Oct 2024	-----	50
3	1 st Oct 2024	31 st Oct 2024	-----	-----	50
4	1 st Oct 2024	31 st Oct 2024	1 st Nov 2024	30 th Nov 2024	60
